

**2024 NICHD NRN / ACT NOW PAS SCHEDULE
TORONTO, CANADA (EASTERN TIME ZONE)**

TIME (ET)	AUTHOR	TITLE	SESSION	TYPE
Friday, May 3, 2024				
4:15 PM – 4:30 PM	Jain, V.	Histologic Chorioamnionitis and Risk of Cerebral Palsy in Preterm Infants	Neonatal Neurology 1: Preterm Clinical	Presentation
5:00 PM - 5:15 PM	Brumbaugh	The Relationship Between Hispanic Ethnicity and Outcomes for Infants Born Extremely Preterm	Neonatal-Perinatal Health Care Delivery 1: Epidemiology	Oral Abstract
Saturday, May 4, 2024				
11:15 AM – 11:30 AM	Kaluarachchi	Changes in Patent Ductus Arteriosus Management and Outcomes in Infants Born at 26-28 Weeks' Gestation	Neonatal Cardiology and Pulmonary Hypertension 1: Shunts	Presentation
3:30 PM - 6:00 PM	Lowe	Is parent-reported quality of life at school age among children born extremely preterm associated with social determinants of health, neonatal morbidities, and developmental outcomes?	Neonatal Follow-up 2	Poster
3:30 PM – 6:00 PM	Ko/Favara	Hospital Care Settings for Pharmacologically Treated Infants in the ESC-NOW Randomized Controlled Trial	Neonatal Clinical Trials 1	Poster
Sunday, May 5, 2024				
8:00 AM – 8:15 AM	Honan	Cerebral Injury and Retinopathy of Prematurity as Risk Factors for Blindness in Children Born Extremely Preterm	Neonatal General 3: Neurology	Presentation
8:00 AM – 8:15 AM	Jain, S.	Neurodevelopmental outcomes at two-years' corrected age of extremely preterm infants exposed to maternal hypertensive disorders of pregnancy	Neonatal Follow up- 1	Presentation
8:45 AM – 9:00 AM	Carlo	Moderately Preterm Infants Discharged with Caffeine at Home for Apnea: The MoCHA Trial	Neonatal Clinical Trials 1	Presentation
11:00 AM – 11:15 AM	Jensen	Effect of darbepoetin on respiratory outcomes in extremely preterm infants: A post-hoc analysis of the NRN Darbe Trial	Neonatal Clinical Trials 2	Presentation
11:45 AM - 12:00 PM	Rice/ Beauman	Antenatal Exposure to Medication for Opioid Use Disorder and Infant Outcomes in the ESC-NOW Randomized Controlled Trial	Neonatal Clinical Trials 2	Oral Abstract/ Platform
2:45 PM - 3:00 PM	Pahl/ MacMillan	Maternal Social Deprivation Index and Characteristics, Care, and Outcomes of Maternal-Infant Dyads in the ESC-NOW Randomized Controlled Trial	Newborn Care	Oral Abstract/ Platform

**2024 NICHD NRN / ACT NOW PAS SCHEDULE
TORONTO, CANADA (EASTERN TIME ZONE)**

TIME (ET)	AUTHOR	TITLE	SESSION	TYPE
Sunday, May 5, 2024				
3:30 PM – 6:00 PM	Salas	Current Trends in Time to Full Enteral Feeding, Late-onset Sepsis, Necrotizing Enterocolitis, and Growth Outcomes of Infants Born Extremely Preterm	Neonatal Fetal Nutrition & Metabolism 3: Enteral Nutrition	Poster
3:30 PM – 6:00 PM	Kaluarachchi	Comparison of Neurodevelopmental Outcomes of Extremely Preterm Infants Undergoing Surgical Ligation vs. Trans-Catheter Closure of the Patent Ductus Arteriosus	Neonatal Cardiology and Pulmonary Hypertension 1: PDA	Poster
Monday, May 6, 2024				
8:00 AM – 8:15 AM	Shukla	Variations in Care Practices and Risk of Mortality or Neurodevelopmental Impairment in Extremely Preterm Infants	Neonatal-Perinatal Health Care Delivery 3: Practices and Procedures	Presentation
8:00 AM – 8:15 AM	Rose	Two-year Outcomes of Extremely Preterm Infants with Surgical Necrotizing Enterocolitis: Changes over Time	Neonatal GI Physiology & NEC	Presentation
9:30 AM - 11:30 AM	Dorner	A Neonatal Morbidity Count of Brain Injury, Bronchopulmonary Dysplasia, and Retinopathy of Prematurity is Strongly Associated with Severe Neurodevelopmental Impairment in Extremely Preterm Infants	Neonatal Follow-up 4	Poster
9:30 AM – 11:30 AM	Chawla	Effect of Hydrocortisone (HC) on Cardiac Mass in Preterm Intubated Infants < 30 weeks Gestational Age	Neonatal Cardiology and Pulmonary Hypertension 4: Congenital Heart Disease	Poster
9:30 AM – 11:30 AM	Chawla	A Comparison of Neonatal Outcomes of Term Neonates with Meconium-Stained Amniotic Fluid Before and After Routine Endotracheal Suctioning Strategy at Birth	Neonatal/Infant Resuscitation 2	Poster
9:30 AM – 11:30 AM	Lockyear	Medications for Gastroesophageal Reflux in Extremely Preterm Infants and Associations with Growth and Development	Neonatal Follow-up 3	Poster
